**NO RETURNS REQUIRED!**

*on fit adjustments & Rx changes!*

**NO MATERIAL RECOVERY FEES!**

**FULL CANCELLATION PRIVILEGES!**

**EASY ONLINE CREDIT REQUEST PROCESS!**

*(Program details below)*

### CUSTOM LENS POLICIES & PROCEDURES

**UNLIMITED WARRANTY** - An optional lens warranty that provides unlimited\* exchanges on qualifying parameter and prescription adjustments and full cancellation privileges within 120 days of the initial order date. Lens returns are not required except in cases of patient cancellation or manufacturer/material defect claims.

**WARRANTY EXCEPTIONS** - Custom soft multi-pack lenses are non-warranted/non-refundable/non-returnable, and are not warranted against tearing/handling damage.

\*We reserve the right to limit exchanges in cases where insufficient information is provided, when consultation assistance is denied, and/or when a successful endpoint is unobtainable in the professional opinion of an Art Optical fitting consultant.

**PARAMETER AND RX ADJUSTMENTS** - Simply contact Art Optical to re-order and visit [www.artoptical.com/credits](http://www.artoptical.com/credits) to request credit on the previous lens. Physical lens returns are not required. (Please Note: In the event of cancellation, all lenses will need to be returned for credit consideration - so do not discard exchange lenses until you are confident the fit is complete.)

**PATIENT CANCELLATION AND DEFECTIVE CLAIMS** - In cases of patient cancellation and manufacturer/material defect claims, physical lenses must be returned with a completed Lens Return Authorization form. In cases other than cancellation, an RA# is required and can be requested by contacting Art Optical at 800.253.9364 with order details. When returning lenses due to cancellation or defective claims, custom soft lenses must be returned in original packaging with labeling intact, and custom GP lenses must be returned DRY in original packaging. Returned lenses are inspected upon receipt to determine credit eligibility. Due to regulatory controls, lenses returned by mistake or that are deemed ineligible for credit, cannot be returned to sender. Lenses being returned to Art Optical for cancellation or inspection should be sent via a traceable method as we cannot be held responsible for items that do not reach our facility. Return shipping costs and proof of delivery are the customers responsibility.
