

EHS CHEMICAL LABELS

Secondary Labels

A secondary label is required when a smaller amount from an original container is transferred to a secondary container, i.e. spray bottle. When using the *original* container for a product, a secondary label is not needed.

HAZARDOUS LABELS & SDS

Write in the chemical name, the precautionary/hazard statements and mark the pictograms that applies based on the SDS for the chemical:

		Chemical Name: <u>Lens Cleaner</u>
		DANGER WARNING <small>(Strike through non-applicable signal word)</small>
<p>Hazard Statements: <u>Flammable, skin & eye irritation</u></p>		
<p>Precautionary Statements: <u>Wash hands with soap & water</u> <u>Rinse eyes for several minutes</u></p>		

Review the Safety Data Sheet (SDS) for any chemical before labeling.

Look for the pictograms and precautionary/hazard statements on the SDS to complete the label.
