

Neurolens is an exception optical lens for TeamVision and will require specific steps to be completed within our Ciao! Optical (Point of Sale) for payment with additional steps are needed to adjust the price based on the lens order. You will order directly from Founders Optical through SpecCheck. However, will need to disposition the order in our order management systems (LPA and Order Tracker) same as other exception lab orders (VSP).

## Ciao! Optical Entry

Enter the patient order including frame, lens selection, and measurements. There are 3 lens base options (SV, Office, and PAL) for the lenses and will select clear and plastic despite what materials or enhancements the patient is getting. Orders are through SpecCheck, what you select in Ciao! Optical is only for pricing and payment.

☒ Clear ☐ Sun ☐ Photo

Neurolens	Neurolens	Neurolens

## Pricing and Tendering

The pricing you have in Ciao! Optical will be the maximum price for that lens design should the patient purchase all features. Neurolens pricing for all materials and enhancements can be found on page 3 of this guide or provided by Neurolens.

Neurolens SV	Neurolens Office	Neurolens PAL
\$1184	\$1334	\$1384

You will discount the lens to the actual price for the patient order in XStore. Post the payment in Ciao! and collect the payment in the credit card terminal.

**XStore POS Information**

Scan the barcode on the product to be sold.  
If the barcode is missing or can't be read, the item number or UPC may be manually entered.

Select additional functions from the options available.

UPC:

Scan or key UPC:  
Press ENTER to transfer.

Neurolens				
Amount Due				\$993.00

- Use **Discount Code 26334**
- Apply the discount to the lens line item (not the frame)
- Enter the **dollar amount** to discount the maximum lens price to the patient order

## Itemized Receipt

Should you need an itemized receipt, you will create that in RevolutionEHR for the patient. The receipt produced in Ciao! will not have the exact lens the patient is purchasing should they need it for their records or any insurance reimbursement (HSA/FSA).

## Submit the Lab Order

Once the order payment has been completed, order directly from Founders Optical through SpecCheck. Access SpecCheckRx.com though the Ciao! Toolkit.

**Username:** [optical@advancedeye2020.com](mailto:optical@advancedeye2020.com)

**Password:** Dixon2020!

## Order Management Process Steps

- 1 Submit order directly from Founders Lab through SpecCheck.
- 2 In LPA, it should default to Rx Sun Authentics or manually change then Transmit the job.
- 3 Once you receive back the order from Founders Lab, you will complete the eyewear inspection in LPA which will trigger a notification in Order Tracker based on PMOC.
- 4 After patient picks up, you will dispense the order in Order Tracker.
