

# THE EVERYWHERE WORKPLACE

Today, the workplace has become flexible. Our workspace no longer needs to be in the office. It's wherever we take our computer.

SHAMIR COMPUTER™ & SHAMIR WORKSPACE™  
PROVIDING AN OPTIMAL VISUAL EXPERIENCE  
IN WORKING ENVIRONMENTS

ADVANCED OCCUPATIONAL LENSES

One complete visual & wellbeing  
solution covering two needs

# SHAMIR WORKSPACE™ & SHAMIR COMPUTER™

are the perfect solution for the ever-evolving modern workplace, providing an optimal visual experience in working environments, ensuring natural ergonomics and reducing eye strain.

These lenses are designed to improve visual clarity and comfort in the 35 centimeter to 1.5 or 3 meter range. They offer one optical solution customized to two different visual needs and occupational environments.

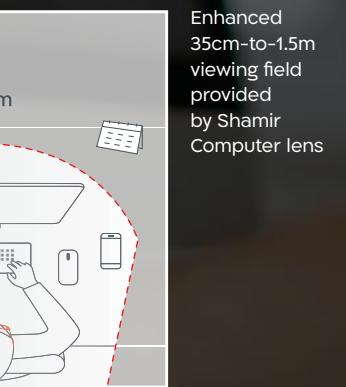

## WHICH ONE ARE YOU?

### SHAMIR COMPUTER™

For heavy computer users who also need to keep their near surroundings in focus.

When focusing on a computer and its near surroundings is a top priority, Shamir Computer™, an advanced Freeform lens, provides a wide field of near viewing with clear vision, a far greater depth of field than that offered by conventional reading lenses.

Shamir Computer™ provides close and mid-distance sharp vision up to 1.5m (at the top rim), while also ensuring a natural ergonomic viewing posture.

Enhanced  
35cm-to-1.5m  
viewing field

by Shamir  
Workspace lens

Up to 3M

Excellent  
vision  
for computer  
& mobile use

Good for open  
space meeting

### SHAMIR WORKSPACE™

For those working at the computer while also focusing on the mid-distance workspace.

Shamir Workspace™ is the ideal solution when the priority is to focus on both mid-distance and near viewing. Offering a greater depth of field, this advanced lens design allows movement within the workspace and sharp vision, whether the required focus is on the desk or a colleague across the room.

Providing close and mid-distance sharp vision up to 3.0m (at the top rim), Shamir Workspace™ also ensures a natural ergonomic viewing posture.
