

Site & Team Member Expenses

Business License Renewal Fees

All licenses and permits are handled through the Home Office. If any forms or notices are received concerning the above, email Licenses@luxotticaretail.com.

Ensure that these notices are sent as soon as possible, as any delay may result in expensive fines or penalties.

Central Purchasing

Sites should always first attempt to order supplies through Central Purchasing in the Inventory Management System (MIM).

Office Depot

All office supplies that are not available through Central Purchasing must be ordered from Office Depot, an online provider of office supplies

Regency Lighting

Luxottica has negotiated a contract with Regency Lighting to provide replacement lamps for all Luxottica North America locations on select lighting (not Ophthalmic Equipment).

Stores should call in their lamp requests to Regency directly at 1-888- 405-6418 (M-F 8am-8pm EST). Follow the prompts to speak directly with a Regency Lighting service representative.

Site Credit Card

The BBVA MasterCard Corporate Purchasing Card should be used for site needs that cannot be purchased through Central Purchasing or Office Depot.

Each Practice Manager (PM) The PM is the only approved employee in the location to make purchases on the BBVA MasterCard Corporate Purchasing Card. It is the responsibility of the PM to track how much is being spent during each month on the Corporate Card Purchase Log/Envelope (CP# 3000662) to not exceed the established credit limit of \$150.

Concur

Concur is the EssilorLuxottica global expense and travel solution for submitting expenses related to travel, optician and license reimbursement, or any site expenses for TeamVision.

Site expenses must be pre-approved and only used for site needs that cannot be purchased through Central Purchasing, Office Depot, or the BBVA MasterCard Corporate Purchasing Card.

TeamVision will reimburse full-time and regular part-time employees for initial state licensing fees or renewal fees incurred after first day of service. Detailed policy coming soon.

Central Purchasing Quick Reference

Practice Manager, Assistant Managers, Lab Managers, Team Leads, and Lab Technicians have access to MIM Fiori and CP Order Dashboard to place orders.

Below are frequently ordered CP Materials (Article Numbers). Orders should be completed by the day before the ordering window end date to ensure all items get ordered.
