

CIAO! OPTICAL

Frame Special Order

This resource will help guide you in the correct process for when you need to special order a frame within Ciao! Optical. It is important to follow all steps to ensure proper replenishment, on-hands, and reduce any negative impact to your inventory.

It is always a best practice to sell what you have in office vs. special ordering frames. Once available for your location, you will be able to use **Smart Shopper** to expand your assortment!

There are four different prompts when ordering frames in Ciao! Optical. Which one you select will impact your inventory and it's important to know the difference and select the correct option to avoid duplicate frames flowing to your location.

- Frame in store
- Same style #/size but different color for measurements
- No Frame Available for measurements
- Frame in store, Special Order

- You will use Frame in Store 99% of the time but will need to check the Ciao! Order Completion screen to ensure availability at the DC (Central Lab) – you will see this in the lab processing type as Central Lab provides Frame.

Special Processing Type

This order requires Outside Processing and has been set to Central Lab provides Frame.

- Do NOT use "Unknown Frame" for any complete pair order.

<input type="checkbox"/> Unknown Frame	

Frame in Store Used most often	Same Style #/size but different color for measurements OR No frame available for measurements	Frame in Store, Special Order
<ul style="list-style-type: none">• The UPC for the frame you want to order must be entered at Frame Selection in Ciao! (Ciao! will notify you if the frame is unavailable)• If UPC is accepted on Frame Selection screen, on Order Completion screen, confirm you have "Central Lab Provides Frame" listed• Must be transmitted to RxO	<ul style="list-style-type: none">• Limited use• Must enter the UPC for the frame• Used to call out that you are using a different frame for EyeRuler 2 or the frame is not in office• Frame will NOT be ordered unless Central Lab provides Frame is on the Order Completion Screen	<ul style="list-style-type: none">• Typically used for frame only orders• For complete pairs, select Frame in Store and confirm Central Lab Provides Frame on the Order Completion Screen

CIAO! OPTICAL

Frame Special Order

There are 3 different processes based on insurance type, complete pair, or frame only:

1 EyeMed, Cash Pay, & any orders through RxO

- Ciao! Optical will verify frame availability at Frame Selection and again on the Order Completion Screen.
- On the Order Completion Screen, you must receive the following confirmation:
“Special Processing Type-This order requires Outside Processing and has been set to Central Lab provides Frame”
- If on the Order Completion Screen, it states “Store sends frame” you must have the frame in office to send or attempt to order through **Smart Shopper**
- For a complete pair, the frame special order is triggered by transmitting to RxO

2 Insurance Lab - When using an Insurance Required lab, you will need to split your order (frame only & lenses only) to generate your frame special order. Transmission to RxO is what triggers the special order frame.

1. Place a Frame only transaction:
 - Enter **Insurance** in Ciao! Optical.
 - In Ciao! Optical, on the Frame Selection screen, enter the **UPC** of the frame you want to order and **Attach the Provider**.

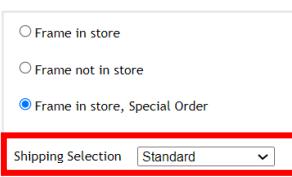

If the moving truck does not print on the Tray Ticket, your frame order has NOT been placed

2. There are three different prompts when ordering frames. Note, only the bottom two options will place a frame special order.

- **Frame not in store** - Use this option if you do not have the frame in office. (i.e., patient wants to re-order same frame, patient saw a frame online).
 - Enter the UPC- you will know the frame is available as you will be prompted to select **Shipping Method** & a **Moving Truck** will appear by the name.

- **Frame in store, Special Order** - Use this option if you have the frame in office but the patient is requesting a new one.
 - Enter the UPC- you will know the frame is available as you will be prompted to select **Shipping Method** & a **Moving Truck** will appear by the name.

3. Once the frame in office, acknowledge the frame in **Order Tracker > Product to Come**:
 - The frame will arrive as a single unit (i.e., not in shipment or with RxO orders).
 - RxO Escalations can not check the status of a frame special order.
4. Place your Lens order in Ciao! Optical and send the frame with your packing slip to your approved Insurance required lab.

CIAO! OPTICAL

Frame Special Order

3

Frame Only – This process would be used when a patient would like to purchase a frame only (sun or ophthalmic) and is not using insurance.
