## How it all Started:

Maui Jim started in 1987 as a small company selling sunglasses on Ka'anapali beach in Lahaina, Maui. Seeing a need in the market for technology that could protect eyes from intense glare and harmful UV while bringing the brilliant colors of the island to life, we engineered the revolutionary PolarizedPlus2® lens.

What began as our Classic Collection of seven styles, has evolved into over 125 styles of sunglasses, all of which are polarized and protect from 100% of harmful UVA and UVB rays, and over 125 styles of eyeglasses.

Our original office is located in Lahaina, Maui, and we still design and test all of our sunglasses there.

In 2022, Maui Jim became part of Kering Eyewear, which belongs to the global Luxury group Kering. Kering Eyewear designs, develops and distributes eyewear for a complete and well-balanced portfolio of brands including LINDBERG, Gucci, Cartier, Saint Laurent, Bottega Veneta, Balenciaga, Chloé, Alexander McQueen, Montblanc, Brioni, Dunhill, Boucheron, Pomellato, Alaia, MCQ and Puma.

## Philosophy:

Inspired by the beauty and culture of Maui, our mission is to spread aloha through vivid color, clarity, and detail.

For those who appreciate the sun, Maui Jim provides more vibrant colors of the world while protecting your eyes from the harsh effects of glare and harmful rays.

We make your life brighter so you see the colors of your world at their best and always feel confident in your style.

Maui Jim believes color and light are the key to human experience. Our sunglasses show you its full spectrum, so you can see the world like you've never seen. We believe everyone should experience all 16,777,216 hues of beautiful color that surrounds us every day.

## The Maui Jim Promise:

We always show our true colors that come shining through in our superior customer service. We promise that you will always be greeted with a friendly voice and a dedicated representative. We want you to be happy. That's why we stand behind every pair of sunglasses we make.

Maui Jim sites were selected for a limited brand launch on several factors; high sun sales being the leading factor. If you have any questions on site selection, reach out to your field leader.

## Additional Notes:

- Although all sites will see Maui Jim lenses in the lens drop downs, only Maui Jim approved sites will be able to order Maui Jim products (both complete pairs and lens only).
- RxO will cancel the order for private pay orders & billers will not submit claims unless you are one of the locations listed above.
- You may only use Smart Shopper to place Maui Jim orders if you are an approved Maui Jim location.

There are 6 Drill Mount Maui Jim UPC's which are available in both Rx and plano (MJ uses a single UPC for both). If the patient brings in the plano version as a Patient Own Frame, it will not be eligible for Rx due to frame limitations. You must sell the Rx version of this frame (complete pairs).

Complete Pair orders aren't a problem for these 6 UPCs because Maui only uses the Rx style within the respective UPC to fulfill an Rx order.

## Additional Notes:

- You can re-lens a patient's own frame (POF)-Maui Jim if it's in good condition and a part of our TeamVision assortment.
- When selling ordering a POF you must search the brand UPC in Ciao! Optical.
- Although all sites will see Maui Jim lenses in the lens drop downs, only Maui Jim approved sites will be able to order.
- You may only use Smart Shopper to place Maui Jim orders if you are an approved Maui Jim location.

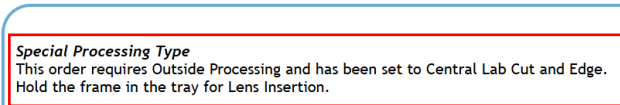

## How to Transmit the initial order using LPA:

- VSP: mark as RxSun Authentic and order will in Maui Jim lab through Eyefinity billing process
- Eyemed: transmit to RxO (order will be routed to Maui Jim's lab)
- Cash Pay: transmit to RxO (order will be routed to Maui Jim's lab)

## RxO Orders: (i.e., cash pay, or non-insurance required lab)

Most of the time when selling a complete pair, Maui Jim will provide the frame. **Check the Order Completion Screen in Ciao! to confirm availability.**

*This indicates the frame is out of stock. You can not order MJ as cut & edge.*

**LPA Routing: You will only order MJ as Complete- Central lab provides frame **OR** Store Sends Frame.**

In the rare occasion you need to ship a frame (patient own frame or a stock frame) directly to the Maui Jim lab, please follow the guidelines below:

1. Affix the temple tag as you do for RxO
2. Wrap copy of tray ticket around the eyewear
3. Use EasyShip to create label & document tracking number

OF CONTENTS

## In Eyefinity:

- You do not need to enter “proprietary” into box 19 Special Instructions. Doing so, will cause your order not to process correctly.
- Do not change the wholesale frame cost that populates in eClaim or eLab. These have been provided by Maui Jim to ensure accurate billing and claim payments to VSP.
- Use the Maui Jim Reference guide to verify the frame parameters. Eyefinity will allow out-of-range orders to submit to Maui Jim lab, but they will not be processed.
- The quickest way to search for the frame is by frame name or sku number (i.e., Ho’okipa or 407-02).
- The frame for Maui Jim sun prescription orders must be with **MJRX** in the color description (image below).
- When ordering, there is no need to select an A/R coating separately as it is automatically included with all Maui Jim lenses.

# OVERCOMING COMMON OBJECTIONS

RETURN TO TABLE  
OF CONTENTS

Being comfortable and confident in discussing the product is essential for anticipating and overcoming consumers' most common objections. Ensure that customers can clearly understand and visualize how Maui Jim sunglasses will enhance their hobbies, lifestyle, and overall visual experience.

## Sounds Like

"Maui Jim sunglasses are designed for a comfortable fit while biking, and we can customize the lens color to enhance road visibility—especially on uneven pavement. The polarized lenses eliminate glare, while the thinner, lightweight design ensures comfort. Plus, they're impact- and shatter-resistant, making them perfect for your active lifestyle. Let me show you how the lens material and polarization work in our *Lens Simulator*."

## Overcoming Objections

Overcoming price objections for **Maui Jim** sunglasses—or any premium product—requires emphasizing value, differentiation, and long-term benefits. Here are some strategies:

### 1. Highlight Unique Selling Points

- PolarizedPlus2® Lens Technology – Reduces glare, enhances colors, and protects against UV rays.
- Clarity & Durability – High-quality materials like Maui Brilliant and Maui Evolution lenses offer superior optics and longevity.
- Eye Health Benefits – 100% UV protection prevents eye strain, fatigue, and long-term damage.
- Lightweight & Comfortable Fit – Designed for all-day wear, making them a practical investment.

### 2. Reframe Price as Investment

- "Rather than replacing cheap sunglasses often, these last for years."
- "Think of it as an investment in your vision and comfort."
- "Would you put a low-cost filter on a high-end camera? Your eyes deserve the best."

### 3. Compare to Competitors

- Maui Jim offers better polarization and color enhancement than most luxury brands.
- Unlike some competitors, repairs and customer service are exceptional—Maui Jim stands behind their products.

### 4. Use Testimonials & Real-Life Scenarios

- Share stories of customers who were skeptical but now swear by them.
- Ask: "Have you ever worn Maui Jims? Try them on and see the difference instantly."

### 5. Bundle Value & Warranty Assurance

- Free case, cleaning cloth, and warranty on defects.
- Excellent repair program, so they last longer than cheaper alternatives.

### 6. Limited-Time Offers / Payment Flexibility

- If applicable, leverage insurance coverage (EyeMed & VSP), Care Credit, and Flexible Spending & Health Savings Accounts. "Think of the cost per wear—over five years, it's just a few cents per day for premium vision."

# PATIENT QUESTIONNAIRE

RETURN TO TABLE  
OF CONTENTS

The Patient Questionnaire is a key part of our Consultative Selling process, helping us understand and address our patients' needs. We recommend using the Live Consult version interactively with the patient, but both the Live Consult and Patient-Provided forms are valuable tools for learning about their outdoor hobbies, vision needs, and eye protection habits. Use this insight to recommend sun protection solutions and determine if Maui Jim is the right fit for them
